Dear Friends,

It is our great pleasure to welcome you to Bologna, on the occasion of the International reference meeting for the 'HDF and Clearance' Macro Area of the Collaborative Research Club.

First day's focus on:

Mutual update of the state of the art, new acquisitions and research perspectives.

The second day will be a precious opportunity for the participants to the many active protocols to share: work in progress, problems, ideas and opportunities that have emerged during the research.

The first months of 2011 counted an intensive program of Area meetings, where the CRC coordinators and advisors set the focus on a number of possible priorities for shared analysis and discussion.

The Bologna meeting aims at being an important synthetical moment of this Program, and of the intensive work of Collaborative Research, involving all of us.

We are confident that this event will help boosting future activities.

Among the meetings locations, some of the most 'meaningful and historical' places of the city of Bologna, the cradle of history and knowledge, home of the oldest University.

This is Bologna, at the heart of the territory where Bellco's home ever since.

Once more, it will be an opportunity to renew our thanks for your participation and your efforts to the evolution of Collaborative Research.

Program

September 30th, 2011

October 1st, 2011

Scientific Program

14.00 Farnese Chapel
Opening Lecture
Bologna and University: history, tradition and innovation
B. Marano - Dean of the Science Faculty,
Alma Mater Studiorum Bologna University

14.20 CRC: state of the art M. Atti

14.40 Introduction
HDF and Clearance A. Santoro

State of the art and new acquisitions

15.10 On line convection F. Maduell

15.30 New toxins e ER R. Vanholder

15.50 Mieloma e FLC G. Palladini

16.10 Coffee Break

Active clinical trial: up to date

16.30 On line convection F. Pizzarelli

17.00 New toxins e ER PG. Bolasco

17.15 Mieloma e FLC S. Pasquali

17.30 Round Table
The dilemma between standardization and personalization in dialysis: comparison of organizational models and experiences
Chairman S. Rimondi
SIN F. Pizzarelli
Assessorato Regionale Assobiomedica F. Gellona
Director of association Echo Nantes B. Bensadoun

Scientific Program

9.00 Hotel Corona d'Oro
Meetings of active clinical trials
• HDF Online
• Middilution
• New Toxins and FLC

11.30 Sala Borsa Public Library - Sala Biagi
Round table on Research Perspectives

13.30 Closing Meeting Lunch
