International Meetings 2011 Bologna, Italy

Critical Care Treatments 9th-10th September

HDF and Clearance 30th September - 1st October

Nutrition and Inflammation 11th-12th October

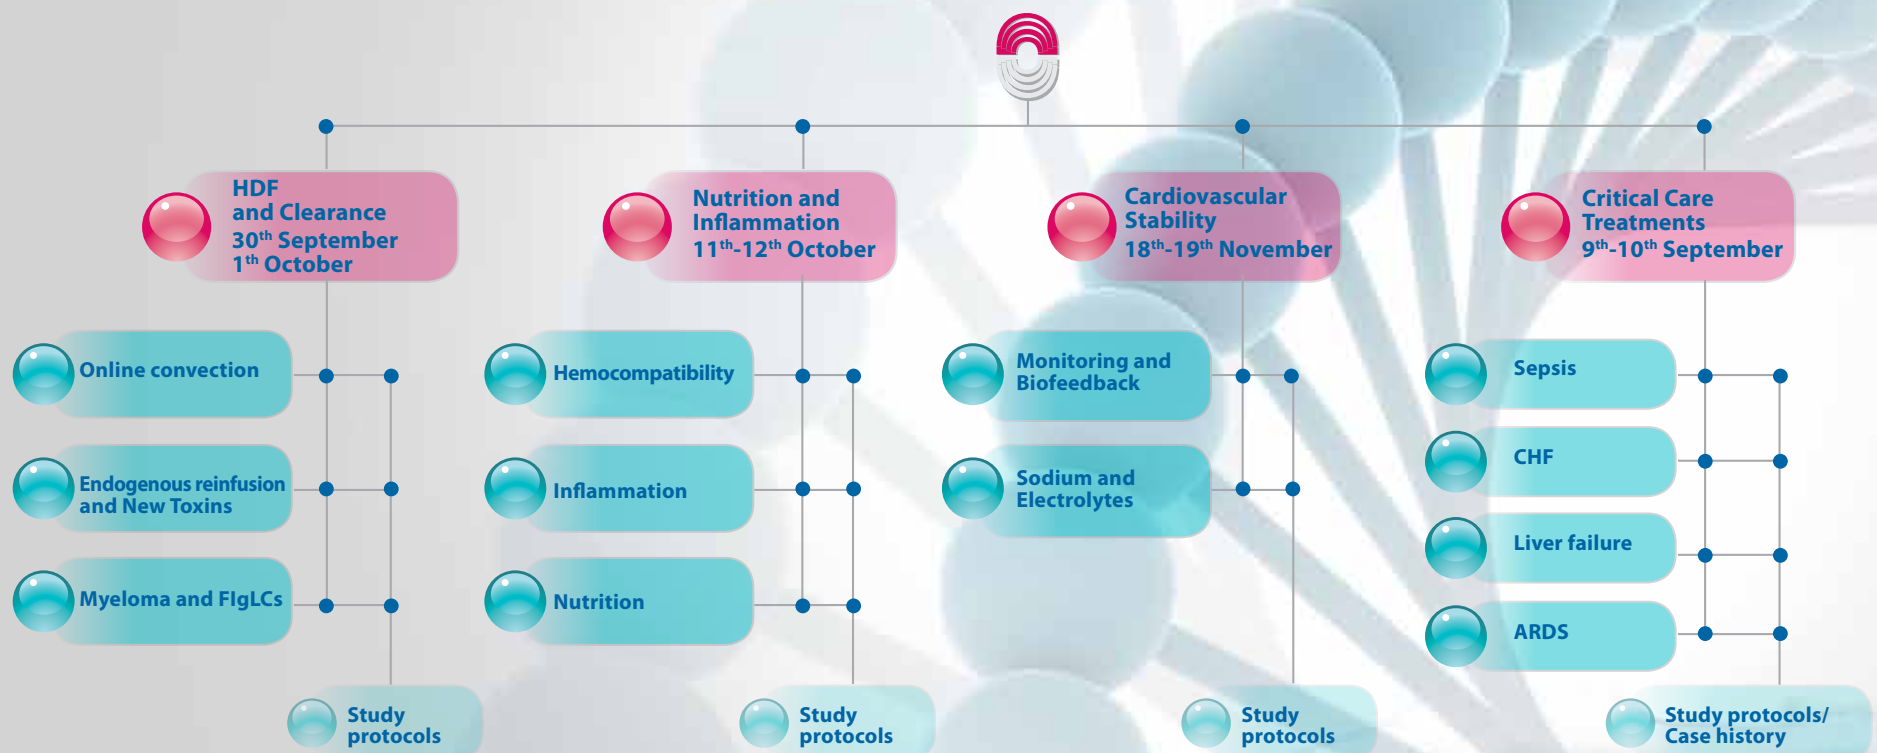

Cardiovascular Stability 18th-19th November

The first months of 2011 counted an *intensive program of Area meetings*, where the CRC coordinators and advisors set the focus on a number of possible priorities for shared analysis and discussion. The Bologna meetings aims at being an important *synthetical moment* of this Program, and of the intensive work of Collaborative Research, involving all of us.

Once more, it will be an opportunity to *renew our thanks for your participation* and your efforts to the evolution of Collaborative Research.

The Items:

- State of the Art
- Active Clinical Trial
- Research Perspectives
- Health Organisation
