CLUB

Dear Friends,

It is our great pleasure to welcome you to Bologna, on the occasion of the International reference meeting for the 'Cardiovascular Stability' Macro Area of the Collaborative Research Club.

First day's focus on:

Mutual update of the state of the art, new acquisitions and research perspectives.

The second day will be a precious opportunity for the participants to the many active protocols to share: work in progress, problems, ideas and opportunities that have emerged during the research.

The first months of 2011 counted an intensive program of Area meetings, where the CRC coordinators and advisors set the focus on a number of possible priorities for shared analysis and discussion.

The Bologna meeting aims at being an important synthetical moment of this Program, and of the intensive work of Collaborative Research, involving all of us.

We are confident that this event will help boosting future activities.

Among the meetings locations, some of the most 'meaningful and historical' places of the city of Bologna, the cradle of history and knowledge, home of the oldest University.

This is Bologna, at the heart of the territory where Bellco's home ever since.

Once more, it will be an opportunity to renew our thanks for your participation and your efforts to the evolution of Collaborative Research.

November 18th, 2011

Scientific Program

14.00	Archiginnasio Public Library Welcome Opening Lecture Bologna and University: history, tradition and innovation Prorector for Research, Alma Mater Studiorum, University of Bologna	S. Rimondi D. Braga
14.20	CRC: state of the art	M. Atti
14.40	The hemodynamic fragility of dialysis patient	C. Zoccali
State of the art and new acquisitions		
	Chairman	S. Stefoni
15.10	Monitoring and biofeedback	L. Gesualdo
15.30	Sodium and Electrolytes	F. Locatelli
16.00	Coffee Break	
Active clinical trial: up to date		
	Chairman	T. Petittclerc
16.30	Monitoring and biofeedback	E. Mancini
16.45	Sodium and Electrolytes	G. Donati
16.45	Blood Volume Monitoring in ICU	J. Maynar
17.15	Round Table The dilemma between standardization and personalization in dialysis: comparison of organizational models and experiences Chairman SIN "Assessorato Sanità-Azienda USL" Assobiomedica Physician ARPDD (Reims)	S. Rimondi M. Marangella F. Gellona E. Canivet

November 19th, 2011

Scientific Program

9.30	Meetings of active clinical trials • Soglia Sala Borsa - Sala Biagi • Isodial Hotel Corona d'Oro - Asinelli Room	A. Santoro T. Petittclerc
11.30	Sala Borsa Public Library - Sala Biagi Round table on Research Perspectives Chairman Discussants:	A. Santoro G. M. Frascà E. Movilli T. Petittclerc
13.30	Closing Meeting Lunch
